

22 January 2018

Planning Partners Landscape Architects  
16 Bree Street  
P.O. Box 4866  
Cape Town  
8000

**Attention: Ms. Antoinette James**

[E-mail:[antoinette@planpart.co.za](mailto:antoinette@planpart.co.za)]

Dear Madam

**APPROVAL: SANDOWN ESTATE PLANT LIST**

The Sandown Estate Plant List, Revision 4, dated January 2018, as compiled by *Planning Partners Landscape Architects*, is found to be in order and is therefore hereby **APPROVED**. This approval supercedes the approval, dated 22 December 2015, of the Sandown Estate Plant List, Revision 1, dated December 2015.

This approval is subject to the following conditions:

1. All landscaping at Sandown Estate must comply with this approved Plant List.
2. Milnerton Estates as the current landowner of Sandown Estate must inform all future landowners of the approved Plant List and provide all landowners with a copy of the approved Plant List in order to ensure it is complied with.
3. The Sandown Property Owners Association Review Committee shall ensure that the Plant List is complied with on any landscaping proposals that are submitted with any Site Development Plans and Building Plans for their review prior to the submission of such plans to the Local Authority for their approval.
4. When submitting Landscape Plans for approval, the numbering as per the approved Plant List must be used.

An endorsed copy, bearing Council's stamp, dated 22 January 2018, is enclosed herewith.

Yours faithfully

Pat Titmuss

**Regional Manager: Environmental & Heritage Management – Northern Region**

## SANDOWN ESTATE PLANT LIST

**Revision 4. January 2018**

### VERY DROUGHT TOLERANT PLANTS

The purpose of this document is to both describe and pre-approve plant species, that are appropriate for use in landscape works, or urban framework plantings within the greater Sandown Estate

**When submitting landscape plans please also use the plant numbers provided. This will assist in the approval of the landscaping plans.**

<b>ANNUAL GROUND COVERS</b>									
1	annual (medium)	<i>Arctotis acaulis</i>	ASTERACEAE	Gousblom		*	*		Purple daisy; sow in autumn Ephemeral
2	annual (small)	<i>Arctotis candida</i>	ASTERACEAE	Malmesbury Gousblom			*		Large daisies; sow autumn; full sun; clay soil
3	annual (medium)	<i>Arctotis hirsuta</i>	ASTERACEAE	Daisy		*	*		Good soil; full sun
4	annual (medium)	<i>Dimorphotheca pluvialis</i>	ASTERACEAE	Daisy		*	*		Yellow daisy; sow autumn; full sun
5	annual (medium)	<i>Dimorphotheca sinuata</i>	ASTERACEAE	Namaqualand Daisy		*	*		Sow autumn
6	annual (medium)	<i>Dorotheanthus bellidiformis</i>	MESEMBRYANTHEMACEAE	BokbaaiVygie		*	*		Sow autumn
7	annual (medium)	<i>Felicia dubia</i>	ASTERACEAE	Daisy			*		Yellow daisy; coastal conditions; sow autumn
8	annual (medium)	<i>Felicia heterophylla</i>	ASTERACEAE	Daisy			*		Yellow to orange daisy; sow autumn; full sun
9	annual (medium)	<i>Felicia amelloides</i>	ASTERACEAE	Daisy					
10	annual (small)	<i>Nemesia barbata</i>	SCROPHULARIACEAE	Nemesia		*	*		Spreading; sow autumn
11	annual (large)	<i>Senecio elegans</i>	ASTERACEAE	Wild Cineraria			*		Sow autumn
12	annual (small)	<i>Steirodiscus taquetes</i>	ASTERACEAE	Daisy			*		Yellow daisy; sow autumn; full sun
13	annual (small)	<i>Ursinia anthemoides</i>	ASTERACEAE	Daisy		*	*		Yellow daisy; sow autumn
14	annual (large)	<i>Ursinia speciosa</i>	ASTERACEAE	Daisy/Namakwa-ursinia				*	Daisy; sow autumn; full sun
<b>SMALL SUCCULENT</b>									
15	succulent (small to med)	<i>Crassula rupestris</i>	CRASSULACEAE	Concertina Plant			*		suitable for rockeries; good soil
15 A	succulent (small to med)	<i>Crassula muscosa</i>	CRASSULACEAE	Shoe Lace Plant				*	Grow well in both full sun and semi shade
15 B	succulent (small to med)	<i>Cotyledon orbiculata oblonga</i>	CRASSULACEAE	Chalk Fingers					Suitable for coastal areas, full sun
16	succulent (small)	<i>Aloe brevifolia</i>	ASPHODELACEAE	Kleinaalwyn			*		well-drained, good soil
17	succulent (small)	<i>Aloe humilis</i>	ASPHODELACEAE	Aloe			*		dry conditions, good soil
18	succulent (small)	<i>Aloe variegata</i>	ASPHODELACEAE	Kanniedood			*		dry conditions, good soil
18 A	succulent (groundcover)	<i>Aptenia cordifolia</i>	AIZOACEAE	Red Aptenia		*	*		Evergreen, fast growing. Full sun. Tolerate coastal area.
19	succulent (small)	<i>Cephalophyllum dubia</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		Full sun
19A	succulent (small)	<i>Delosperma sp.</i>	AIZOACEAE	Vygie				*	Full sun
20	succulent (small)	<i>Erepsia dunensis</i>	MESEMBRYANTHEMACEAE	Dune Vygie		*	*		sandy conditions
21	succulent (small)	<i>Lampranthus amoenus</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		full sun
22	succulent (small)	<i>Lampranthus aurantiacus</i>	MESEMBRYANTHEMACEAE	Red Vygie		*	*		sandy soils; full sun
23	succulent (small)	<i>Lampranthus aureus</i>	MESEMBRYANTHEMACEAE	Golden Vygie		*	*		heavy soils; full sun
24	succulent (small)	<i>Lampranthus calcaratus</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		coastal sands
25	succulent (small)	<i>Lampranthus explanatus</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		full sun
26	succulent (small)	<i>Lampranthus filicaulis</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		full sun
27	succulent (small)	<i>Lampranthus glaucus</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		yellow flowers
28	succulent (small)	<i>Lampranthus reptans</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		full sun
29	succulent (small)	<i>Lampranthus stenus</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		white flowers
30	succulent (small)	<i>Lampranthus variabilis</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		red flowers
31	succulent (small)	<i>Orbea variegata</i>	ASCLEPIADACEAE	Carrion Flower			*		plant under other, larger succulents
32	groundcover (large)	<i>Carpobrotus edulis</i>	MESEMBRYANTHEMACEAE	Sour fig		*	*		Sandy conditions; full sun; edible fruits
32A	succulent (small)	<i>Jordaaniella sp.</i>	AIZOACEAE	Vygie		*	*		Well drained soil. Full sun
32B	succulent (small)	<i>Senecio ficoides</i>	ASTERACEAE	Kilimanjaro Plant		*			Well drained soil. Full sun

<b>WATER PLANTS</b>									
33	water plant	<i>Aponogetan distachyos</i>	Waterblommetjie			*	*		edible fruits: use in ponds
34	water plant	<i>Cyperus textilis</i>	Sedge			*	*		reedy plant for water's edge
35	water plant	<i>Nymphaea capensis</i>	Blue Water Lily			*	*		beautiful flower: use in ponds
36	water plant	<i>Nymphoides indica</i>	Geelwateruintjie			*	*		plant in ponds
37	water plant	<i>Phragmites australis</i>	Fluitjiesriet			*	*		large reed; tolerates brakish conditions
38	water plant	<i>Schoenoplectes scirpoides</i>	Sedge			*	*		reedy plant for water's edge
38 A	water plant	<i>Schoenoplectes nodosus</i>	Sedge			*	*		reedy plant for water's edge
38 B	water plant	<i>Juncus capensis</i>	Sedge			*	*		reedy plant for water's edge
38 C	water plant	<i>Cyperus longus</i>	Sedge			*	*		reedy plant for water's edge
38 D	water plant	<i>Isolepis prolifer</i>	Sedge			*	*		reedy plant for water's edge
38 E	water plant	<i>Isolepis krausii</i>	Sedge			*	*		reedy plant for water's edge
<b>CLIMBERS</b>									
39	climber	<i>Asparagus densiflorus</i>	Wild asparagus					*KZN	Shade or full sun
40	climber	<i>Asparagus scandens</i>	Wild asparagus			*	*		Damp, shady position
41	climber	<i>Clematis brachiata</i>	Traveller's Joy					* EC/KZN	Good soil, shelter
42	Climber	<i>Jasminum multipartitum</i>	Starry Wild Jasmine				*Eastern	*	Sun to semi-shade, masses of scented white flowers &
43	climber	<i>Kedrostis nana</i>	Dawidjieswortel			*	*		Plant among shrubs
45	climber	<i>Pelargonium peltatum</i>	Ivy-leaved Pelargonium				*		Plant among shrubs
45A	climber	<i>Rhoicissus digitata</i>	Baboon Grape				*		Good in coastal conditions and to cover fences.
46	climber	<i>Rhoicissus tomentosa</i>	Wild Grape			*	*		Good soil, shelter
47	climber	<i>Senecio tamoides</i>	Canary Creeper				*	*EC/KZN	Grow in the shade of trees, flowers in sun.
47 A	climber (succulent)	<i>Solanum africanum quadrangulare</i>	Drunken Berry						
48	climber	<i>Thunbergia alata</i>	Black-eyed susan					*	Tropical Africa / grows in semi-shade and full sun
<b>PERENNIAL GROUNDCOVERS</b>									
62	groundcover	<i>Arctotis stoechadifolia</i>	Kus-gousblom				*		Grey-leaved; yellow flowers: good for coastal areas.
63	groundcover	<i>Asystasia gangetica</i>	Creeping Foxglove				*Eastern	*	Moist position, semi-shade to sun, foxglove flower, fast
64	groundcover	<i>Carissa macrocarpa 'green carpet'</i>	Natal Num Num					* KZN	Low growing, farming tough groundcover, semi hardy, sun
64 A	groundcover	<i>Cineraria saxifraga</i>	Wild Cineraria						
65	groundcover	<i>Dymondia margaratae</i>	Silver Carpet				*		Flat growing, excellent between paving stones prefers moist
66	groundcover	<i>Felicia amelloides</i>	Blue Felicia/Blue Marguerite				*	*	compact, small daisy-like blue flowers all year
66 A	groundcover	<i>Felicia echinata</i>	Blue Felicia/Blue Marguerite				*	*	compact, small daisy-like blue flowers all year
67	groundcover	<i>Gazania hybrids</i>	Hybrid Gousblom					*	Wind resistant, hardy, sunny well drained position
68	groundcover	<i>Gazania maritima</i>	Roots Gousblom				*		
69	groundcover	<i>Gazania rigens</i>	Gousblom				*		Yellow daisies; suited to coastal conditions
70	groundcover	<i>Geranium incanum</i>	Bergtee			*	*		Sandy conditions; full sun
71	groundcover	<i>Helichrysum argyrophyllum</i>	Everlasting			*	*		Grey-leaved; yellow flowers: full sun
74	groundcover	<i>Helichrysum petiolare</i>	Kooigoed				*		Soft grey foliage: sun to semi-shade
75	groundcover	<i>Hermannia pinnata</i>	Honey Bells			*	*		Fine, bright green foliage low growing with Salmon Coloured
76	groundcover	<i>Dimorphoteca fruticosum</i>	Trailing African Daisy				*	*	trailing growth habit, sun to shade tolerant, white flowers
77	groundcover	<i>Dimorphoteca iucundum</i>	Bergbietou/Bou Bietou				*	*	sun/light shade, sandy banks, dune stabiliser
78	groundcover	<i>Plectranthus neochilus</i>	Spurflower					* E/Cape	Shade / Sun
79	groundcover	<i>Pelargonium capitatum</i>	Rose-scented Pelargonium			*	*		Spreading coastal plant with scented leaves & pink flowers
80	groundcover	<i>Sutera cordata</i>	Sutera			*	*		Does well in semi-shade coastal plant
81	groundcover	<i>Tetragonia fruticosa</i>	Kinkelbossie			*	*		Sandy conditions
82	groundcover	<i>Leucospermum sp.</i>	Slangbossie			*	*

<b>HERBACEOUS PERENNIALS</b>									
83	herbaceous perennial	<i>Arctotheca calendula</i>	ASTERACEAE	Cape Weed		*	*		Hardy in sandy conditions; pretty spring flowers
84	herbaceous perennial	<i>Asparagus macowannii</i>	ASPARAGACEAE	Wild asparagus			*		
85	herbaceous perennial	<i>Conicosia pugioniformis</i>	MESEMBRYANTHEMACEAE	Groot Vetkousie		*	*		Sandy soil; full sun
86	herbaceous perennial	<i>Conicosia communis</i>	MESEMBRYANTHEMACEAE	Vygie		*	*		Sandy conditions; full sun
87	herbaceous perennial	<i>Dianthus caespitosus</i>	CARYOPHYLLACEAE	Wild Pink			*		Sow spring
88	herbaceous perennial	<i>Gazania krebsiana</i>	ASTERACEAE	Oranjegousblom			*		Good soil, full sun
89	herbaceous perennial	<i>Gazania pectinata</i>	ASTERACEAE	Botterblom			*		Orange daisy; full sun
90	herbaceous perennial	<i>Helichrysum patulum</i>	ASTERACEAE	Hottentotskooigoed		*	*		Sprawling herb; sunny position
91	herbaceous perennial	<i>Limonium peregrinum</i>	PLUMBAGINACEAE	Strandroos		*	*		Sandy conditions; full sun
92	herbaceous perennial	<i>Monopsis lutea</i>	CAMPANULACEAE	Yellow Lobelia		*	*		Moist, sandy conditions
93	herbaceous perennial	<i>Nemesia floribunda</i>	SCROPHULARIACEAE	Leeubekkie			*		Good soil, full sun
94	herbaceous perennial	<i>Orphium frutescens</i>	GENTIANACEAE	Teeringbos		*	*		Sandy conditions; full sun
95	herbaceous perennial	<i>Pelargonium triste</i>	GERANIACEAE	Pelargonium/Kaneelblom		*	*		Cinnamon scented at night, leaves variable in width
96	herbaceous perennial	<i>Plectranthus ecklonii</i>	LAMIACEAE	Medleywood			*		Blue flowers in autumn; semi-shade
97	herbaceous perennial	<i>Plectranthus ciliatus</i>	LAMIACEAE	Zulu Wonder				KZN	Shade
98	herbaceous perennial	<i>Plectranthus fruticosus</i>	LAMIACEAE	Muishondblaar			*		Damp, shady position
99	herbaceous perennial	<i>Scabiosa incisa</i>	DIPSACACEAE	Wild Scabious			*		Pretty blue flowers; clump forming
100	herbaceous perennial	<i>Streptocarpus rexii</i>	GESNERIACEAE	Cape Primrose				*	Shady position, under trees
100A	herbaceous perennial	<i>Stachys aethiopica</i>	LAMIACEAE	African Stachys					Semi shade

<b>LARGE RESTIOS</b>									
101	restio (large)	<i>Calopsis paniculata</i>	RESTIONACEAE	Restio			*		Forms big tussocks; tolerates light shade; wet conditions
102	restio (large)	<i>Elegia capensis</i>	RESTIONACEAE	Restio		*	*		Spreading, beautiful; moist conditions
103	restio (large)	<i>Ischyrolepis subverticellata</i>	RESTIONACEAE	Restio			*		Tolerates coastal conditions and semi-shade
104	restio (large)	<i>Restio quadratus</i>	RESTIONACEAE	Restio			*		Spreading; soft-green feathery foliage
105	restio (large)	<i>Restio tetragonus</i>	RESTIONACEAE	Restio			*		Similar to R. quadratus
106	restio (large)	<i>Rhodocoma gigantea</i>	RESTIONACEAE	Restio			*		Bright green foliage
107	restio (large)	<i>Thamnochortus insignis</i>	RESTIONACEAE	Restio			*		Tolerates coastal conditions; a striking plant
<b>MEDIUM RESTIOS</b>									
108	restio (medium)	<i>Elegia tectorum</i>	RESTIONACEAE	Thatching Reed		*	*		
109	restio (medium)	<i>Elegia cuspidata</i>	RESTIONACEAE	Restio			*		Spreading; striking colouring
110	restio (medium)	<i>Rhodocoma arida</i>	RESTIONACEAE	Restio			*		Well-drained soil; requires little water when established
111	restio (medium)	<i>Rhodocoma capensis</i>	RESTIONACEAE	Restio			*		Dark green and bushy
112	restio (medium)	<i>Thamnochortus cinereus</i>	RESTIONACEAE	Restio			*		Tolerates coastal conditions
113	restio (medium)	<i>Thamnochortus lucens</i>	RESTIONACEAE	Restio			*		Plant in groups
114	restio (medium)	<i>Thamnochortus spicigerus</i>	RESTIONACEAE	Dune Reed		*	*		
<b>SMALL RESTIOS</b>									
115	restio (small)	<i>Elegia ebracteatum</i>	RESTIONACEAE	Restio			*		Suitable for rockeries and containers
116	restio (small)	<i>Elegia filicea</i>	RESTIONACEAE	Restio			*		Suitable for containers; plant in groups
117	restio (small)	<i>Elegia stipularis</i>	RESTIONACEAE	Restio			*		Tolerates coastal conditions; plant in groups
118	restio (small)	<i>Thamnochortus fruticosus</i>	RESTIONACEAE	Restio		*	*		Tolerates coastal conditions and alkaline soil; plant in
119	restio (small)	<i>Thamnochortus pellucidus</i>	RESTIONACEAE	Restio			*		Tolerates coastal conditions and alkaline soil; plant in
120	restio (small)	<i>Thamnochortus punctatus</i>	RESTIONACEAE	Restio		*	*		Tolerates coastal conditions and alkaline soil; plant in
<b>FERNS</b>									
121	fern (medium)	<i>Cyathea capensis</i>	CYATHEACEAE	Tree Fern			*		Soist, shady position
122	Tree fern (large)	<i>Cyathea dregei</i>	CYATHEACEAE	Common Tree Fern			*	*	stream banks, forest margins and grass banks
123	fern (small)	<i>Rumohra adiantiformis</i>	POLYPODIACEAE	Seven Weeks Fern			*		Moist, shady position
<b>LARGE GEOPHYTES</b>									
124	geophyte (large)	<i>Aqapanthus africanus</i>	ALLIACEAE	Aqapanthus			*		Full sun
125	geophyte (large)	<i>Aqapanthus praecox</i>	AGAPANTHACEAE	Common Aqapanthus/blue lily			*	*	Evergreen, hardy, sun to shade
126	geophyte (large)	<i>Amaryllis belladonna</i>	AMARYLLIDACEAE	March Lily		*	*		Flowers in March, leaves in winter; well-drained soil, full sun
127	geophyte (large)	<i>Aristea major</i>	IRIDACEAE	Aristea		*	*		Vivid blue flowers; full sun
128	geophyte (large)	<i>Brunsvigia orientalis</i>	AMARYLLIDACEAE	Candelabra Flower		*	*		Deciduous; sandy soil
129	geophyte (large)	<i>Kniphofia praecox</i>	ASPHODELACEAE	Red-hot Poker		*	*		Good soil, full sun
130	geophyte (large)	<i>Kniphofia uvaria</i>	ASPHODELACEAE	Red Hot Poker		*	*		Good soil, full sun
131	geophyte (large)	<i>Watsonia pyramidata</i>	IRIDACEAE	Watsonia		*	*		Plant in clusters; full sun
132	geophyte (large)	<i>Zantedeschia aethiopica</i>	ARACEAE	Arum Lily		*	*		Moist, sandy conditions; full sun

<b>MEDIUM SHRUBS</b>									
198	shrub (medium)	<i>Anisodonte scabrosa</i>	MALVACEAE	Kus Sandroos			*		Long flowering period; shelter
199	shrub (medium)	<i>Asparagus aethiopicus</i>	ASPARAGACEAE	Wild asparagus			*		
200	shrub (medium)	<i>Athanasia dentata</i>	ASTERACEAE	Athanasia		*	*		Full sun; sandy conditions
201	shrub (medium)	<i>Athanasia parviflora</i>	ASTERACEAE	Athanasia			*		Full sun
202	shrub (medium)	<i>Chrysanthemoides incana</i>	ASTERACEAE	Grys Bietou		*	*		Sandy conditions
203	shrub (medium)	<i>Cliffortia ericifolia</i>	ROSACEAE	Climbers Friend		*	*		
204	shrub (medium)	<i>Coleonema alba</i>	RUTACEAE	White Confetti Bush		*	*		Sandy soil, sunny position
205	shrub (medium)	<i>Coleonema calycinum</i>	RUTACEAE	Confetti bush			*		Full sun to semi-shade
206	shrub (medium)	<i>Coleonema pulchellum</i>	RUTACEAE	Confetti Bush		*	*		Pink flowers
207	shrub (medium)	<i>Cyclopia intermedia</i>	FABACEAE	Heuningbostee			*		Bright yellow pea flowers
208	shrub (medium)	<i>Diospyros glabra</i>	EBENACEAE	Blueberry Bush			*		moist, sunny position in acid sand
209	shrub (medium)	<i>Erica baccans</i>	ERICACEAE	Erica/heath			*		well-drained soil
210	shrub (medium)	<i>Erica bauera</i>	ERICACEAE	Albertinia heath			*		well-drained soil
211	shrub (medium)	<i>Erica glandulosa</i>	ERICACEAE	Erica/heath			*		well-drained soil
212	shrub (medium)	<i>Erica subdivaricata</i>	ERICACEAE	Erica/heath		*	*		well-drained soil
213	shrub (medium)	<i>Eriocephalus africanus</i>	ASTERACEAE	Wild Rosemary		*	*		aromatic, hardy; full sun
214	shrub (medium)	<i>Eriocephalus racemosus</i>	ASTERACEAE	Kapokbos			*		aromatic, hardy; full sun
215	shrub (medium)	<i>Euryops virgineus</i>	ASTERACEAE	Rivierharpisbos			*		full sun, moderate shelter
216	shrub (medium)	<i>Hypoestes aristata</i>	ACANTHACEAE	Ribbon Bush			*	*KZN/ECape	Abundant spikes of purple flowers, semi-shade to sun, low
217	shrub (medium)	<i>Leonotis leonurus</i>	LAMIACEAE	Wild Dagga			*		full sun, attracts birds
218	shrub (medium)	<i>Leucadendron levisanus</i>	PROTEACEAE	Cape Flats Conebush		*	*		neutral to slightly alkaline sand, full sun
219	shrub (medium)	<i>Leucadendron salignum</i>	PROTEACEAE	Common Sunshine Conebush		*	*		acid, well-drained soil, full sun
220	shrub (medium)	<i>Leucadendron spissifolium</i>	PROTEACEAE	Spear-leaf Conebush			*		acid, well-drained soil, full sun
221	shrub (medium)	<i>Leucadendron tinctum</i>	PROTEACEAE	Spicy Conebush			*		acid, well-drained soil, full sun
222	shrub (medium)	<i>Melianthus major</i>	MELIANTHACEAE	Large Melianthus			*		decorative large leaves and flowers; wet conditions
223	shrub (medium)	<i>Metalsia muricata</i>	ASTERACEAE	Blombos		*	*		sandy coastal conditions; wind resistant
224	shrub (medium)	<i>Muraltia citeroides</i>	POLYGALACEAE	Muraltia		*	*		sandy conditions
225	shrub (medium)	<i>Strelitzia reginea</i>	STRELITZIACEAE	Crane Flower		*	*		Good soil, wind resistant, grow semi-shade or full sun
229	shrub (medium)	<i>Passerina vulgaris</i>	THYMELAEACEAE	Gonnabos		*	*		wind resistant; sandy conditions; full sun
230	shrub (medium)	<i>Pelargonium cucullatum</i>	GERANIACEAE	Pelargonium			*		spreading; hardy
231	shrub (medium)	<i>Phyllica pubescens</i>	RHAMNACEAE	Featherhead			*		acid, well-drained sand
232	shrub (medium)	<i>Plumbago auriculata</i>	PLUMBAGINACEAE	Plumbago			*		attractive blue flowers; good soil, moderate shelter; full sun
233	shrub (medium)	<i>Podalyria calyptata</i>	FABACEAE	Pink Keurtjie		*	*		acid, well-drained, moist soil
234	shrub (medium)	<i>Polvgala virgata</i>	POLYGALACEAE	Bloukappies		*	*		moist conditions; pretty flowers
235	shrub (medium)	<i>Protea cynaroides</i>	PROTEACEAE	King Protea			*		acid, well-drained soil, full sun, mountainous
236	shrub (medium)	<i>Protea grandiceps</i>	PROTEACEAE	Red Sugarbush		*	*		acid, well-drained soil, full sun
237	shrub (medium)	<i>Protea scolymocephala</i>	PROTEACEAE	Thistle Sugarbush, Witskollie		*	*		neutral to slightly alkaline sand
238	shrub (medium)	<i>Sersia incisa</i>	ANACARDIACEAE	Kalwertaabos			*		dry conditions; good soil; full sun
239	shrub (medium)	<i>Sersia tomentosa</i>	ANACARDIACEAE	Furry Rhus		*	*		moderate shelter
240	shrub (medium)	<i>Salvia africana-lutea</i>	LAMIACEAE	Salvia		*	*		wind resistant, sandy conditions
241	shrub (medium)	<i>Salvia dentata</i>	LAMIACEAE	Bergsalie			*		dry conditions; good soil; full sun
242	shrub (medium)	<i>Serruria fasciflora</i>	PROTEACEAE	Common Pin Spiderhead		*	*		full sun
243	shrub (medium)	<i>Serruria florida</i>	PROTEACEAE	Blushing Bride			*		acid, well-drained soil, full sun
244	shrub (medium)	<i>Stoebe plumosa</i>	ASTERACEAE	Slangbos		*	*		hardy

<b>SMALL TO MEDIUM SHRUBS</b>									
245	shrub (small to medium)	<i>Aqathosma imbricata</i>	RUTACEAE	Sand Buchu			*		various cultivars with different growth habits
246	shrub (small to medium)	<i>Aqathosma ovata</i>	RUTACEAE	Buchu			*		various cultivars with different growth habits
247	shrub (small to medium)	<i>Artemisia afra</i>	ASTERACEAE	Wildeals		*	*		medicinal
248	shrub (small to medium)	<i>Ballota africana</i>	LAMIACEAE	Kattekruid			*		medicinal
251	shrub (small to medium)	<i>Chironia baccifera</i>	GENTIANACEAE	Bitterbossie		*	*		pretty pink flowers and bright red berries; full sun
252	shrub (small to medium)	<i>Elytropappus rhinocerotis</i>	ASTERACEAE	Renosterbos			*		good soil, full sun
253	shrub (small to medium)	<i>Euryops annae</i>	ASTERACEAE	Waterharpuis			*		yellow flowers; dry conditions; full sun
255	shrub (small to medium)	<i>Olea exasperata</i>	OLEACEAE	Dune Olive			*		wind resistant; full sun
<b>SMALL SHRUBS</b>									
256	shrub (small)	<i>Adenandra villosa</i>	RUTACEAE	China Flower		*	*		very pretty; acid, well-drained soil, full sun
257	shrub (small)	<i>Aqathosma cerefolium</i>	RUTACEAE	Buchu			*		sandy, coastal conditions; full sun
258	shrub (small)	<i>Athanasia crithmifolia</i>	ASTERACEAE	Klaaslouwbos			*		sandy conditions; full sun
259	shrub (small)	<i>Blaeria ericoides</i>	ERICACEAE	Erica/heath		*	*		well-drained soil, full sun
260	shrub (small)	<i>Barleria obusta</i>	ACANTHACEAE	Bush Violet			*	*	Semi-shade
261	shrub (small)	<i>Barleria repens 'Pink'</i>	ACANTHACEAE	Pink Bush Violet			*	*	More compact, striking pink flowers.
262	shrub (small)	<i>Barleria repens 'Purple Prince'</i>	ACANTHACEAE	Small Bush Violet			*	*KZN	Full sun/semi-shade, excellent ground cover, can be pruned
263	shrub (small)	<i>Dimorphotheca cuneata</i>	ASTERACEAE	Witgousblom			*		dry conditions; full sun, good soil
264	shrub (small)	<i>Erica coccinea</i>	ERICACEAE	Erica/heath		*	*		yellow flowers
265	shrub (small)	<i>Erica mammosa</i>	ERICACEAE	Erica/heath			*		pink or lime flowers
266	shrub (small)	<i>Erica plukenetii</i>	ERICACEAE	Hangerties Erica			*		acid, well-drained soil, full sun, hill slopes
267	shrub (small)	<i>Erica speciosa</i>	ERICACEAE	Erica/heath			*		red flowers
268	shrub (small)	<i>Erica versicolor</i>	ERICACEAE	Erica/heath			*		red flowers
269	shrub (small)	<i>Euryops pectinatus</i>	ASTERACEAE	Daisy bush		*	*		full sun
270	shrub (small)	<i>Felicia filifolia</i>	ASTERACEAE	Felicia			*		pretty blue flowers; suitable for rockeries
271	shrub (small)	<i>Felicia hyssopifolia</i>	ASTERACEAE	Bush Felicia			*		long flowering period; good soil, full sun
272	shrub (small)	<i>Helichrysum vestitum</i>	ASTERACEAE	Everlasting			*		full sun; well-drained soil
273	shrub (small)	<i>Myrsine africana</i>	MYRSINACEAE	Cape Myrtle		*	*		pretty berries; sheltered, cool conditions
274	shrub (small)	<i>Pelargonium betulinum</i>	GERANIACEAE	Pelargonium		*	*		sandy conditions
275	shrub (small)	<i>Pelargonium capitatum</i>	GERANIACEAE	Pelargonium		*	*		Easy to cultivate, windy coastal gardens, sunny position
276	shrub (small)	<i>Polygala fruticosa</i>	POLYGALACEAE	Polygala			*		Full sun, semi shade, thrives on occasional feeding
277	shrub (small)	<i>Salvia chamaeaaqnea</i>	LAMIACEAE	Salvia		*	*		full sun; prune back in winter
278	shrub (small)	<i>Serruria aemula</i>	PROTEACEAE	Strawberry Spiderhead		*	*		full sun; heavy soil
279	shrub (small)	<i>Sutherlandia frutescens</i>	FABACEAE	Cancer Bush		*	*		sandy conditions; full sun

<b>SHRUBS TO MEDIUM TREES</b>										
280	shrub or medium tree	<i>Brabejum stellatifolium</i>	PROTEACEAE	Wild Almond		*	*			spreading habit; moist, sunny position
281	shrub or medium tree	<i>Tarchonanthus camphoratus</i>	ASTERACEAE	Wild Camphor		*	*			hardy, wind resistant, fluffy cream flowers; prune if to grow
<b>SHRUBS OR SMALL TREES</b>										
282	shrub or small tree	<i>Bauhinia galpinii</i>	FABACEAE	Pride of De Kaap					* KZN	Tolerates poor soils, very low maintenance
283	shrub or small tree	<i>Brachylaena discolor</i>	ASTERACEAE	Coast Silver Oak					* KZN	Excellent Coastal tree, wind resistant, needs rich soil
284	shrub or small tree	<i>Buddleia saligna</i>	LOGANIACEAE	False Olive		*	*			moderate shelter, sunny position
285	shrub or small tree	<i>Burchellia bubalina</i>	RUBIACEAE	Wild Pomegranate		*	*			attractive flowers; moist, shelter
286	shrub or small tree	<i>Canthium inerme</i>	RUBIACEAE	Kwar			*		* SWC/KZN	moderate shelter
287	shrub or small tree	<i>Cassia aethiopica</i>	CELASTRACEAE	Cape Cherry		*	*			moist sheltered position
288	shrub or small tree	<i>Diospyros lycioides</i>	EBENACEAE	Karobloubos/Star Apple			*		* Karoo	suitable for dry conditions
289	shrub or small tree	<i>Diospyros whyteana</i>	EBENACEAE	Bladder Nut/ Forest Monkey			*			attractive dark foliage; moderate shelter
290	shrub or small tree	<i>Dodonaea angustifolia</i>	SAPINDACEAE	Sand Olive		*	*			dry conditions, full sun
291	shrub or small tree	<i>Dodonaea viscosa</i>	SAPINDACEAE	Sand Olive		*	*			hardy, drought resistant; full sun
292	shrub or small tree	<i>Euclea undulata</i>	EBENACEAE	Gewone Guarrie			*			dry, hot conditions; full sun
293	shrub or small tree	<i>Hartogia schinoides</i>	CELASTRACEAE	Spoonwood		*	*			moderate shelter
294	shrub or small tree	<i>Heteromorpha arborescens</i>	APIACEAE	Parsley Tree		*	*			Straggling open-branched shrub/samll tree, frequently found
295	shrub or small tree	<i>Mavtenus oleoides</i>	CELASTRACEAE	Mountain Mavtenus		*	*			moderate shelter
296	shrub or small tree	<i>Ochna serrulata</i>	OCHNACEAE	Carnival Bush			*			pretty flowers and fruits; semi-shade to full sun
297	shrub or small tree	<i>Olea capensis capensis</i>	OLEACEAE	Bastard Ironwood			*		CF	moderate shelter, sunny position
298	shrub or small tree	<i>Polygala myrtifolia</i>	POLYGALACEAE	September Bush		*	*			purple flowers; attractive; full sun
299	shrub or small tree	<i>Pterocelastrus rostratus</i>	CELASTRACEAE	Red Candlewood			*			moist sheltered position
300	shrub or small tree	<i>Pterocelastrus tricuspidatus</i>	CELASTRACEAE	Candlewood		*	*			hardy; full sun
301	shrub or small tree	<i>Rhamnus prinoides</i>	RHAMNACEAE	Dogwood			*			moderate shelter
302	shrub or small tree	<i>Schotia afra</i>	CAESALPINIACEAE	Hottentot's Bean,			*			hardy; attractive red flowers
303	shrub or small tree	<i>Scutia myrtina</i>	RHAMNACEAE	Cat-thorn		*	*			a scrambling species; good along a fence; edible berries
<b>MEDIUM TO LARGE TREES</b>										
304	tree (medium to large)	<i>Olea capensis macrocarpa</i>	OLEACEAE	Ironwood		*	*			moderate shelter
305	tree (medium to large)	<i>Afrocarpus falcatus</i>	PODOCARPACEAE	Outeniqua Yellowwood			*			moderate shelter
306	tree (medium to large)	<i>Afrocarpus latifolius</i>	PODOCARPACEAE	Real Yellowwood		*	*			moderate shelter
<b>MEDIUM TREES</b>										
309	tree (medium to large)	<i>Celtis africana</i>	Celtidaceae	Witstinkhout						
310	tree (medium to large)	<i>Erythrina caffra</i>	Fabaceae	Coast coral tree			*			
311	tree (medium to large)	<i>Harpephyllum caffrum</i>	Anacardiaceae	Wild plum			*			
312	tree (medium)	<i>Vachellia xanthophloea</i>	FABACEAE	Fever tree			*		*KZN	Yellow green trunk, light green foliage, moist postion, semi-
313	tree (medium)	<i>Ekebergia capensis</i>	MELIACEAE	Cape Ash			*			moderate shelter
314	tree (medium)	<i>Ficus natalensis</i>	MORACEAE	Common Wild Fig			*		* KZN	Fast growing, invasive roots, thirsty, rich soil. Only
315	tree (medium)	<i>Kiggelaria africana</i>	FLACOURTIACEAE	Wild Peach		*	*			moderate shelter
316	tree (medium)	<i>Nuxia floribunda</i>	STILBACEAE	Forest Elder			*			moderate shelter
317	tree (medium)	<i>Sersia viminalis</i>	ANACARDIACEAE	White Karee			*			moderate shelter, fast growing
318	tree (medium)	<i>Strelitzia alba</i>	MUSACEAE	Wild Banana			*			moist, moderate shelter, sunny position
319	tree (medium)	<i>Syzgium quineense</i>	Myrtaceae	Water Pear					*	Tall upright, fast growing hedge or street tree
320	tree (medium)	<i>Virgilia oroboides</i>	FABACEAE	Virgilia, Keurboom		*	*			attractive flowers, fast growing; moist sunny position

<b>SMALL TO MEDIUM TREES</b>										
321	tree (small to medium)	<i>Vachellia karroo</i>	FABACEAE	Sweet Thorn, Soetdoring		*	*			full sun
322	tree (small to medium)	<i>Cussonia spicata</i>	ARALIACEAE	Common Cabbage Tree			*			accent plant; full sun, moderate shelter
323	tree (small to medium)	<i>Nuxia floribunda</i>	STILBACEAE	Forest Elder					*KZN/Ecape	
324	tree (small to medium)	<i>Olea europaea africana</i>	OLEACEAE	Wild Olive		*	*			wind resistant; full sun
325	tree (small to medium)	<i>Afrocarpus elongatus</i>	PODOCARPACEAE	Breede River Yellowwood			*			moderate shelter
326	tree (small to medium)	<i>Sersia pendulina</i>	ANACARDIACEAE	White Karree					* N/Cape	
327	tree (small to medium)	<i>Sideroxylon inerme</i>	SAPOTACEAE	Milkwood		*				shelter/cover when small; full sun
328	tree (small to medium)	<i>Syzygium cordatum</i>	MYRTACEAE	Waterbery					*KZN/Ecape	
328 A	tree (small to medium)	<i>Salix mucronata</i>	Salicaceae	Cape Willow						Semi-deciduous, full sun, moist soil
<b>SMALL TREES</b>										
329	tree (small)	<i>Encephalartos longifolius</i>	ZAMIACEAE	Cycad				*		beautiful accent plant
<b>LARGE SUCCULENT</b>										
330	succulent (large very)	<i>Kumara (Aloe) plicatilis</i>	ASPHODELACEAE	Fan Aloe			*			can grow to be a small tree
331	succulent (large)	<i>Aloe comosa</i>	ASPHODELACEAE	Aloe			*			dry areas, full sun
332	succulent (large)	<i>Aloe lineata</i>	ASPHODELACEAE	Aloe			*			full sun
333	succulent (large)	<i>Aloe microstigma</i>	ASPHODELACEAE	Aloe			*			full sun, well-drained soil
334	succulent (large)	<i>Aloe speciosa</i>	ASPHODELACEAE	Tilt-head Aloe			*			full sun, good soil
334 A	succulent (large)	<i>Aloe cooperi</i>	ASPHODELACEAE	Cooper's aloe					*	Full sun, tolerate moist soil
334 B	succulent (large)	<i>Aloe chabaudii</i>	ALOACEAE						*	Full sun, well drained soil
334 C	succulent (large)	<i>Aloe suprafoliata</i>	ALOACEAE	Book Aloe					*	Full sun, well drained soil
335	succulent (large)	<i>Euphorbia mauritanica</i>	EUPHORBIACEAE	Gifmelkbos			*			full sun
336	succulent (large)	<i>Portulacaria afra</i>	PORTULACACEAE	Spekboom			*			can make a good hedge plant in dry areas
337	succulent (large)	<i>Tylecodon paniculatus</i>	CRASSULACEAE	Botterboom		*	*			good accent plant; full sun
338	succulent (large)	<i>Tylecodon wallichii</i>	CRASSULACEAE	Kandelaarsbos			*			dry, hot conditions; good soil
<b>MEDIUM TO LARGE SUCCULENT</b>										
339	succulent (medium to large)	<i>Aloe arborescens</i>	ASPHODELACEAE	Krantz Aloe			*			good soil, full sun
340	succulent (medium to large)	<i>Aloe ferox</i>	ASPHODELACEAE	Bitter Aloe			*			good soil, full sun
341	succulent (medium to large)	<i>Aloe succotrina</i>	ASPHODELACEAE	Scree Aloe			*			well-drained soil, full sun
341 A	succulent (medium to large)	<i>Aloe barberae</i>	ASPHODELACEAE	Tree Aloe				Eastern		well-drained soil, full sun
341 B	succulent (medium to large)	<i>Crassula ovata</i>	CRASSULACEAE	Jade Plant						
<b>SMALL TO MEDIUM SUCCULENT</b>										
342	succulent (medium)	<i>Aloe commixta</i>	ASPHODELACEAE	Aloe			*			hot, dry areas; good soil
343	succulent (medium)	<i>Aloe comptonii</i>	ASPHODELACEAE	Aloe			*			hot, dry areas; good soil
344	succulent (medium)	<i>Aloe aracilis</i>	ASPHODELACEAE	Aloe			*			spreading and shrubby
345	succulent (medium)	<i>Aloe striata</i>	ASPHODELACEAE	Coral Aloe			*			good soil, full sun
346	succulent (medium)	<i>Bulbine frutescens</i>	ASPHODELACEAE	Bulbine			*			yellow or orange inflorescences
347	succulent (medium)	<i>Cotyledon orbiculata</i>	CRASSULACEAE	Varkoor		*	*			good soil, full sun
348	succulent (medium)	<i>Ruschia macowenii</i>	MESEMBRYANTHEMACEAE	Vygie		*	*			sandy conditions; full sun
